0.75% per annum)

Performance fees Negotiable

#### **INVESTMENT OBJECTIVE**

The Mergence SWIX Fund aims to provide investors with capital growth over the long term. The objective is to achieve returns that are in excess of the FTSE/JSE Shareholder Weighted Index [SWIX] over any three-year rolling period. The fund is managed as a core mandate, targeting maximum active returns relative to tracking error volatility.

Our philosophy of pragmatism underlines our approach to investing in equities, and thus the Fund's objective is to be a consistent generator of alpha through cycles. We embrace a style-agnostic approach given the cyclicality in the performance of a strong bias towards either value or growth styles. Our investment process is based on detailed bottom-up fundamental analysis where we dig deeper to understand the quality of business models and management teams. We aim to invest mainly in high-quality businesses that are trading at a discount to our assessment of fair value, while taking selective exposure to cheap, average-quality businesses that have a clear value-unlock process. Our equity investment process is comprehensive, proprietary, research-driven, and long-term focused.

#### **INVESTOR PROFILE**

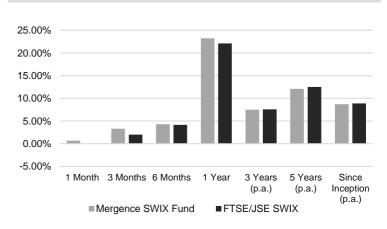

#### The Fund is suitable for investors:

- who seek specialist South African equity exposure as part of their overall investment strategy;
- who believe long term equity exposure adds value;
- who know the nature of equity exposure, in that there is entry risk and the potential of capital loss.

#### **CARBON FOOTPRINT**

The Mergence SWIX Fund is conscious of its carbon footprint and is actively encouraging improved disclosure and carbon management across all JSE listed companies. The Mergence SWIX Fund's Carbon Footprint is available on request.
