INVESTOR PROFILE

The Fund is suitable for institutional investors:

- who seek exposure through supporting developmental investing in terms of social and environmental criteria;
- who are comfortable with the inherent volatility of the financial markets, and who acknowledge that the effects of impact investing occur over medium to long term time horizons.

PERFORMANCE COMMENTARY

The Fund has invested in various renewable energy projects located in various South African provinces. The weighted average of renewable energy project investments in the fund yield gross returns above the benchmark return of CPI + 4%. In addition to achieving the gross returns, the Fund has invested in projects that demonstrate higher than threshold economic development indications including community ownership and local content. The Fund has diversified into commercial and industrial electricity supply.

FUND COMPOSITION

The Mergence Renewable Energy Debt II Fund invests in feasible renewable energy generation projects based on proven technology. Investments are made in debt instruments underpinned by electricity generation assets with power purchase agreements in place. Repayments from the generation asset earnings are passed through to the investor. Investments take place through renewable energy project companies to maximise profit and isolate specific risks. The Fund aims to invest in projects which are structured to deliver socio-economic targets in excess of the minimum thresholds, therefore taking into account local content, local procurement, local ownership and job creation.

INVESTMENT OBJECTIVE

The Mergence Renewable Energy Debt Fund II is a Development Impact Fund which seeks to provide commercially viable investments into the renewable energy sector enabling investors to achieve targeted investment returns together with social and environmental impact. This Fund invests primarily in the construction, commissioning and operation of renewable energy projects within South Africa, and aims to achieve the maximum risk-adjusted return possible from this asset class. The Fund invests in the senior & mezzanine debt of viable renewable energy projects.

Our Investment approach includes:

- Strong fundamentals;
- Diversification across technologies; and
- Experienced management team with strong track record.

IMPACT OBJECTIVE

The Fund aims to invest in projects which are structured to deliver socio-economic targets in excess of the minimum thresholds, therefore taking into account local content, local procurement and local ownership and job creation.
